# **Create a desktop shortcut**

This topic is under construction. It may be incomplete and is subject to change.

## When to use this procedure

Follow the steps below to add a shortcut to AIMsi on your AIMsi desktop. You can do this for your live and test environments, but make sure you give the shortcut a meaningful name so they are not confused later.

## **Steps to complete**

### Create a shortcut from Windows Explorer

- 1. In Windows Explorer, navigate to the location where you installed AIMsi and rightclick the aimsi.exe file.
- 2. Point to Send to then click Desktop (create shortcut).

- 3. On your desktop, right-click your new shortcut and click **Rename**.
- 4. Enter a new, meaningful name for the shortcut, such as **AIMsi Test** (this will help distinguish it from other AIMsi shortcuts you might have on your desktop).

### Create a shortcut from your computer desktop

1. Right-click on your computer desktop, point to **New**, and click **Shortcut**.

- 2. On the Create Shortcut window, click Browse.
- 3. Navigate to the location where you installed AIMsi in Install the server copy of AIMsi (the default location is C:\AIMsi).
- 4. Select aimsi.exe and click **OK**.
